Project Name: Opportunity awareness website
To help POC get more opportunities in the community
What barriers to equitable opportunities to POC encounter?
K’eon M., Sebastien R., Jordan N.
Ridgemont High School
Ottawa, Ontario, Canada
Engage:

What challenge does your project address? BLM
Why did your team select this topic or challenge?
So we can try to stop racism.
How is it a real world problem or concern? Yes it is because a lot of racism is in the world. This is why we pick BLM to stop racism.
Investigation:

During our investigation we found that many people were unaware of current opportunities due to the lack of proper notifications.

Currently email is the main method of communication, but has lead to 100’s or 100’s of unread emails

Better would be in person or text notifications
We discovered that the percentage of people of colour the graduate was a very low percentage and that there was a lot of opportunities that some people were not seeing so we made a website that has a form built in to notify them when there's a opportunity for them to participate in
WHAT THIS WEBSITE IS ABOUT

During our research about the opportunities that POC receive, we've found out that POC students graduate at a lesser rate than non-POC students.

In a article published by the London free press the education minister of Ontario says that "Data shows that indigenous, black and other racialized students are disproportionately represented in applied courses."
