Ocean Clean

09.29.2021

Jayla Cameron
Ocean clean
Notre dame high school
ottawa,Canada
Overview

This project is called ocean clean. This project is to keep oceans clean and reduce plastic. This project will bring awareness and fundraise money for an organization called “the ocean cleanup”.

Goals

1. Bring awareness.
2. Fundraise money.

Specifications

For this project, I will need materials to finish this project. The materials I will need are a long sleeve t-shirt, plain water bottle, bracelets, etc. These materials that I have named will be sold to the highschool students / staff to fundraise money to help this organization. To add on to this project I will also be creating a website and social media platforms, such as instagram to bring awareness.

Milestones

I. Create the website
   This website will have information about the cause and what we are doing to solve this problem.

II. Create social media platforms
   Social media platforms will be created to help the fundraising and bring awareness to this situation.

III. Create the materials
   This material I will make will be sold around the school and eventually around the school board.
IV. Sell materials

These materials will be sold around the school.

V. Bonus (create a donation page)

This will be a bonus. This will help the fundraising as well.

Timeline/schedule

This will be finished by October 15th 2021.
